SERVICE BULLETIN

ARMCON

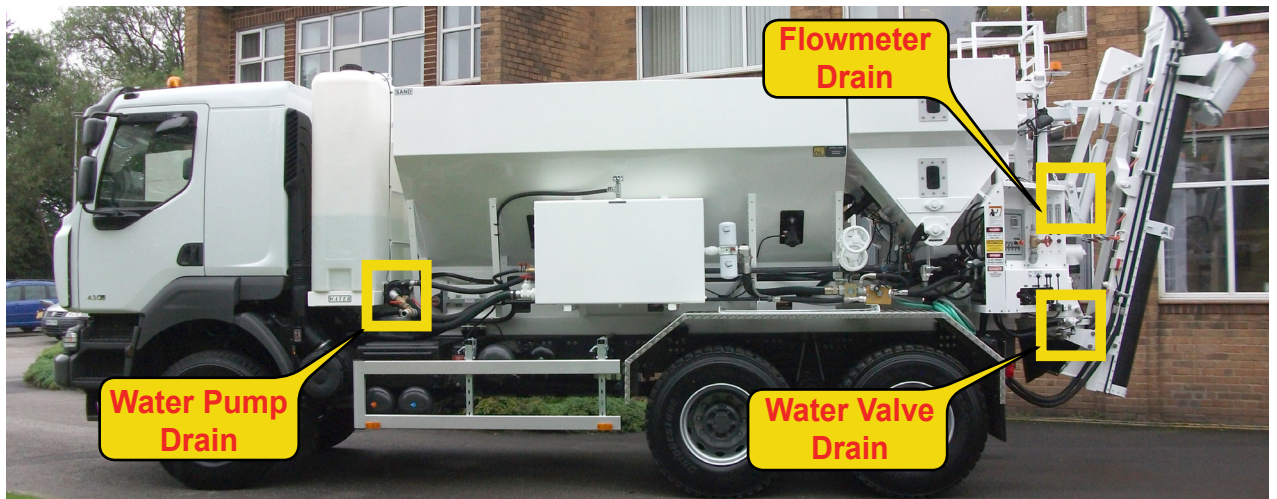

CERTAINTY: IN CONCRETE

SAFETY FIRST: Always remove keys and lock off power before carrying out any maintenance

FROST DAMAGE

Protect your mixer

ALWAYS DRAIN IF THERE IS A RISK OF FREEZING

1. Shut off main water supply valve. There is no need to drain tank
2. Open the individual drain valves.
3. Use air-line to purge system (see image)
4. Leave the valves open until the machine is next operated
5. CHECK! Your admix system as it may also need draining

TECH TIP
In freezing weather, avoid leaving the machine loaded overnight
